

NI Curriculum Links

Key Stage 2

Below are just some of the curriculum areas where these materials can be used to provide lessons delivering a number of curricular outputs. Select all or part of the slides, facts and activities to deliver a range of curriculum objectives.

- **The World Around Us**
 - Interdependence
 - Place
 - Change over time
- Personal Development and Mutual Understanding
- Language and Literacy
- Mathematics and Numeracy
- Cross-Curricular Skills – *Communication and ICT*
- Thinking Skills – *Working with others, Problem solving*
- Learning Experiences – *Links between curricular areas, Enquiry based*
- Attitudes and Dispositions – *Concern for Others*

		World Around Us	Language & Literacy	Mathematics & Numeracy	Personal Development & Mutual Understanding	
Cross Curricular Skills	Communications		Deforestation			
	Using Mathematics			Deforestation		
	ICT	Deforestation				
Thinking Skills & Personal Capabilities	Working with Others				Deforestation	
	Thinking, Problem Solving, Decision Making				Deforestation	
	Self-Management					
	Being Creative					
Learning Experiences	Links between Curricular Areas	Deforestation				
	Skills Integrated					
	Active & Hands On					
	Challenging & Engaging					
	Culturally Diverse				Deforestation	

	Enquiry Based	Deforestation				
Attitudes & Dispositions	Concern for Others				Deforestation	
	Commitment, Determination, Resourcefulness					
	Openness to New Ideas					
	Tolerance					
	Integrity & Moral Courage					
	Respect					

The World Around Us

Topic	Pupils should be enabled to explore:	Relevant Madagascar Lessons	Specific Linkages/ideas
Interdependence	How they and others interact in the world		
	How living things rely on each other within the natural world	Deforestation	Impacts of deforestation on native plants and animals
	Interdependence of people and the environment and how this has been accelerated over time by advances in transport and communications		
	The effect of people on the natural and built environment over time.	Deforestation	Changes brought about by people over the past 100 years on the island and its wildlife
Place	How place influences the nature of life		
	Ways in which people, plants and animals depend on the features and materials in places and how they adapt to their environment		

	Features of, and variations in places, including physical, human, climatic, vegetation and animal life		
	Our place in the universe		
	Change over time in places	Deforestation	The speed and extent of deforestation leading to major changes in landforms, land use, wildlife and lifestyles
	Positive and negative effects of natural and human events upon place over time		
Movement and Energy	The causes and effect of energy, forces and movement		
	Causes that effect the movement of people and animals		
	How movement can be accelerated by human and natural events such as wars, earthquakes, famine or floods		
	Positive and negative consequences of movement and its impact on people, places and interdependence		
Change over Time	How change is a feature of the human and natural world and may have consequences for our lives and the world around us	Deforestation	Impacts of deforestation on ability of land to support people and wildlife
	Ways in which change occurs over both short and long periods of time in the physical and natural world	Deforestation	Differences between short term and long term benefits and costs of deforestation; why it is advantageous for a man to cut a tree, but results in long term damage to all Malagasy
	The effects of positive and negative changes globally and how we contribute to some of these changes	Deforestation	What we can do to impact on deforestation globally and in Madagascar through purchasing decisions, investment, aid and policy
